

# The Digital Credential Match Up

Credly

Accredible

Credly only offers badges for your learners.

Credential Options that give your learners a wide range of ways to celebrate their achievements.

Accredible lets you decide which credential type best suits your learners. We offer badges, certificates, and micro-credentials

Credly only offers a digital badge solution for their enterprise customers.

Enterprise Ready solutions that can serve your large learner base.

Accredible gives enterprise customers a unique digital badge and certificate experience.

Credly requires learners to create an account to be able to view, print, and share their digital credentials.

No Account Required to "Claim" Credentials - making it easy for learners to view and share their credentials.

Accredible makes it easy for learners to view, print, and share their credentials without creating an account.

Credly limits the custom features you can add to your badge, making it difficult to make it look and feel like your own.

Custom Badge Attributes to give your digital credentials a personalized look and feel.

Accredible gives you the ability to customize every part of your digital badges to seamlessly fit your brand.

Credly's digital badges include their logo, showcasing it next to your brand.

Fully Branded Credential Experience to showcase your brand.

Accredible digital credentials only feature your brand logo and can be customized with your brand colors, fonts, etc.

Credly currently doesn't provide unique learning pathways for your learners to follow to reach various achievements.

Unique learning pathways to incentivize continued learning.

Accredible offers a clear path to continued learning by enabling you to easily show your learners what set of courses to take to achieve their goals.

Credly's prices fluctuate based on the number of credentials you issue and their pricing is hidden.

Price Transparency so you know exactly how much you will pay to issue your credentials.

Accredible pricing is easily accessible on our website. Our flat rate pricing allows you to budget for your digital credential program.

Credly offers **very limited customizations** to create a network of certified learners.

Spotlight Directory to showcase your learners and their achievements.

Accredible gives you **100% custom** fields and branding so you can highlight your learners in a recognized community.

Credly, as of publication, does not provide the highest level of proven security protection.

SOC-2 Type 2 certified to keep your learner's information and digital credentials secured.

Accredible maintains the highest level of protection with our blockchain credentials and highly secured servers.
